AI Technologies: Generative AI

Databases: MySQL, DBMS

Developer Tools: VS Code, Git, GitHub, Python IDLE

Projects

Quiz Website — <i>HTML, CSS, JavaScript</i>	Oct 2025 - Nov 2025
🔗 Developed a responsive web-based quiz application with timer and automatic score calculation. 🔗 Implemented dynamic question handling and result display using JavaScript.	
Business Website — <i>React, Tailwind</i>	May 2025 - Jul 2025
• Built a modern responsive business website using reusable React components. • Implemented routing, form validation, and clean UI using Tailwind CSS.	
Karpagam Food Court — <i>UI/UX (FIGMA)</i>	Jan 2025 - Mar 2025
• Designed and prototyped a mobile restaurant application in Figma featuring table reservation, food ordering, cart management, and secure payment workflows, ensuring an intuitive and user-friendly experience. • Created end-to-end user flows, wireframes, and high-fidelity UI screens for restaurant booking and online food ordering, focusing on seamless navigation, visual consistency, and improved customer engagement.	

Certifications

MongoDB Basics – Online

SQL (Basic and Intermediate) – HackerRank

Cisco Networking Essentials – Cisco Networking Academy

Deep Learning Fundamentals – Cognitive class.ai

Core Competencies
